Fireman Walter Peterson, of the A., S. R. & G. passenger train, was the victim of quite a severe accident Tuesday afternoon. He was coupling the front of the engine to a car, when, by some mishap, his hand got caught between the couplings. WORK TO BEGIN SOON.

The A. S. R. & G. to Enter the Phosphate Belt.

Alachua county will soon have a network of railroads, especially in the western part where the richest phosphate deposits abound. The Atlantic, Suwannee River and Gulf, the railroad that is being built by the Ambler company, the line for which has been surveyed as far as Deadman's Bay on the Gulf, will soon be extended west as fast as possible until it crosses the South Florida division of the Plant system at Wade in the northwestern portion of the county.

This road is now complete as far as Alachua and already it is doing a paying freight and passenger business. A representative of the Sun met a prominent official of the new road Sunday and asked him for information in reference to the road. From him the representative learned that the work would be resumed about November 1st when a large force of men would be put to work on the line. It is the intention of the company to haul freight to and from the phosphate belt by January 1st, and perhaps sooner. They have received very liberal encouragement from the citizens of the west end of the county, some of whom have given them the right of way through their property. The Ambler Lumber company are building the road for the purpose of reaching the excellent timbered lands of West and Middle Florida, which have never been disturbed. In addition to this they will receive some shipments of phosphate rock which will be of very material benefit to them.—Gainesville Sun.

Change of Proprietors.

This step is taken by Dr. Stewart in order that he may better serve his large and growing practice as a physician.

Mr. Smith, the new proprietor of the drug store, is an enterprising, upright young gentleman, and the TELEGRAPH speaks for him a successful career as a druggist.
